Submitting Exam Claims for Patients with Diabetes

Include the appropriate diabetic eye exam Current Procedural Terminology (CPT®) Category II code on VSP® WellVision Exam® claims for patients with diabetes. These codes provide more complete information on exam results to support performance measures for programs including, Medicare's Merit-Based Incentive Payment System (MIPS), Healthcare Effectiveness Data and Information Set (HEDIS®), and Star Ratings. They also underline the importance of annual eye exams for these patients and reduce the administrative burden of pulling patient chart notes.

CPT Category II codes are informational codes and should be billed with a $0.00 amount. Patient records must indicate any condition included on a claim.

Include for Patients with Diabetes **WITH** Evidence of Retinopathy	
2022F	Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed
2024F	Seven standard field stereoscopic retinal photos with interpretation by an ophthalmologist or optometrist documented and reviewed
2026F	Eye imaging validated to match diagnosis from seven standard field stereoscopic retinal photos results documented and reviewed

Include for Patients with Diabetes **WITHOUT** Evidence of Retinopathy	
2023F	Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed
2025F	Seven standard field stereoscopic retinal photos with interpretation by an ophthalmologist or optometrist documented and reviewed
2033F	Eye imaging validated to match diagnosis from seven standard field stereoscopic retinal photos results documented and reviewed

Use This CPT II Code for Patients with Diabetes **LOW RISK** of Retinopathy (no evidence of retinopathy in the prior year)	
3072F	Low risk for retinopathy (no evidence of retinopathy in the prior year) photos results documented and reviewed

Where to include CPT Category II codes on eClaim*[2]

Enter the appropriate CPT Category II code in box 24d.
